

Founded in 2013, Systematic Chaos brings an entirely new dimension to the Dream Theater tribute experience. North America's only authentic Dream Theater Tribute is located in Southern California and captures the sound, energy, technical expertise, and even the look of Dream Theater.

Dream Theater themselves recognized the tribute band on their "Along For the Ride" 2014 tour by including part of Systematic Chaos's promo video in their Intermission "Youtube Remix" video. Systematic Chaos continues to enjoy their friendship and support.

The tribute has created the ultimate "DT Experience" for long-time fans and newcomers alike, performing songs from the band's entire 25+ year career with all of the passion and stage theatricality that Dream Theater has come to be known for.

The band is currently performing throughout Southern California and Nevada to enthusiastic crowds and is eager to expand the Chaos!

Systematic Chaos is armed and ready for a full musical assault to bring the Dream Theater experience to a city near you!
